

## HEMACRYL – FB

Hemacryl -FB is specially developed water-based Foil Adhesive suitable to print on Kintwear, where in Printers can achieve foiling at his convenience.

### TECHNICAL INFORMATION

Composition	: Based on Acrylic Polymers Emulsion
Appearance	: Thick Paste
Stencil / Screen	: Water Resistant
Wash up	: Water / Mild detergent
Reducer	: Water up to 2-3%
Curing	: 160 c for 2-3 min.
Fusing	: 160 c for 3-4 sec with 61b Pressure (Varies with Fabric)
Ph value	: 7 – 8

### APPLICATION :

Hemacryl –FB is ready to use foil Adhesive, which can be used for transfer foil printing on nearly all type of cotton fabric with excellent fastness and soft feel. Hemacryl FB is specially developed foil adhesive, where by printer have option to do foil transfer even after 2-3 days of printing, this properties makes it feasible to print with Anti -foiling Khadi (AFK), which generally require 24 hrs for perfect drying.

Care must be taken to check required fastness properties before production as fastness varies on different fabric also finish on the fabric affect fastness.

Shelf Life : Hemacryl FB is not subject to a particular limitation of its shelf life, as ink contains water, it must be protected from fungus. We recommend closing opened cans very thoroughly.

Water –based Paste : Phthalate Free : PVC Free
