Squeegee	:	Soft - medium Durometer
Stencil	:	water - resistant
Wash-up	:	water /Mild detergent
Reducer	:	water upto 2-3%
Curing /Fusion	:	320° f / 160° c
Ph Value	:	8-8.5

Application:

Texaprint KBP is a thick highly covering paste specially to print on woven fabric and prints have good luster with soft touch, good adherence and wash resistance. We recommend to add 2% fixcer to the paste before Printing.

Pot Life of Paste after adding fixcer is around 8-10 hrs.

Care must be taken to check the required fastness properties before production as fastness varies on different fabrics also finish on the fabric affect the fastness.

Shelf life: Texaprint is not subject to a particular limitation of its shelf life, as the ink contains water. It must be protected from fungus. We recommend to close opened cans very thoroughly.

Mix thoroughly before use
